

Wildlife Welcome!

This special place in our community is being cared for with wildilfe in mind

St Dubricius Church and Porlock Parish Council have joined forces to help nature thrive while caring responsibly for this shared space.

You will see grass managed at different heights, with some areas kept short for access and others left longer to encourage wildflowers and provide food and shelter for wildlife.

This approach will be planned and carefully managed to support biodiversity while respecting the character of the churchyard. We recognise it may not be to everyone's taste, but it reflects a shared commitment to nature recovery and invites villagers and visitors alike to pause, look more closely, and consider the part we can all play in supporting wildlife.
